

Sales Playbook — 2025

Classification: Internal — Sales | Last updated: February 2025 | Source: Confluence / Sales | Owner: Sam

How we sell Helios. Keep it consultative — lead with the customer's problem, not our feature list.

Qualification (BANT)

Criterion	What "good" looks like
Budget	Named budget owner, > \$10k annual
Authority	Champion + economic buyer identified
Need	A metric they check weekly and can't trust today
Timing	Decision within 90 days

Plans & positioning

We sell three standard plans. Most SMB deals land on Growth.

Plan	Positioning	List price (per seat / month)
Starter	Individuals / trials	\$49
Growth	Growing teams (sweet spot)	\$79
Scale	Multi-team rollouts	\$149

Reminder: the Growth plan is \$79 per seat / month. Only discount with VP approval.

Objection handling

- "Too expensive" → reframe on cost per hour saved; offer annual billing.
- "We already have a BI tool" → we're the layer that makes it trustworthy, not another dashboard.

Handoff to CS

Once signed, log the deal in the CRM and open a #cs-onboarding thread within 24 hours.
